To whom it may concern

O'Donovan Interiors carried out an 8,000 sq ft fit out for Gilead Sciences Ireland Limited shared services centre in Cork Ireland.

The scope of works included the full fit out of open plan and office space for this operation. The project was carried out to a very high standard and achieved all its goals with respect to quality, cost and time.

There were three aspects of this project that were particularly pleasing. The company's flexibility, their ability to incorporate changes and still deliver on time was excellent. The project management and organization of the project ensured the Health and Safety standards were good and contractors were managed well. Communication was excellent, Mark was available at all times providing updates, progress, solutions to issues giving Gilead the reassurances that the project was being well managed. I wish more projects were managed like this.

Keiran Ferguson,  
International Director of Facilities,  
Gilead Sciences Ltd.
